

# COLLABORATION-LED WASTE REDUCTION: FROM PRODUCER TO CONSUMER

**13 October**  
**14.00-15.00/ Iran Room (B-116)**

Photo: ©FAO/Daniel Hayduk

In Sweden, Government policy supporting collaborations intended to reduce food waste and production losses has been a great success. In part, due to the specific policy for Global Development (PGD) which supports the creation of platforms for knowledge exchange and multi-sectoral collaboration. This side event will present a number of examples of this policy-led collaboration from the Swedish context relating to the reduction of food waste and production losses throughout the whole food chain, on a global scale.

## *RUNNING ORDER:*

- 14.00-14.05 Short introduction SIANI, Madeleine Fogde
